

**A special message directly from Krzysztof Klapa, Vice President Ronald McDonald House, Poland, working with his counterparts in Ukraine, Romania, and throughout the war-torn area:**

Dear All,

Friends representing U.S. franchise community—from all of your colleagues in Poland and Ukraine area—YOU ARE THE BEST.

I would like to thank and assure you that your enormous financial support is being used by us, Polish RMHC Chapter team, in the most productive and effective way. We are working tirelessly around the clock on the Ukraine/Polish border, RMHC Houses, Mobile Units, 27 Family Rooms, and an adult bed delivery program we have created are an integral part of our everyday activities.

It is our duty to show you how our aid activities for Ukrainian children and their families looks like in these dramatic days, and to visualize how much can be done thanks to your priceless support. Consider it done!

Your first generous donation from NOA Members and U.S. Owners is already being utilized by the Poland RMHC team dedicated for helping Ukrainian war refugees, their children, and families. I am sending photos for you to see a Ukrainian family, already in our RM House in Warsaw. It shows mother, Antonia, Father, Oleksandr and their daughter, Polina. She was an oncologically ill child originally from south-eastern Ukraine, then Polina was treated in the biggest Ukrainian children's hospital, when the war drama began. After days of escape they are now in Warsaw, Polina as a patient in a pediatric hospital of Warsaw Medical University. Her parents, thanks to your support, are some of many we have been able to care for in the RM House there. See how their eyes look, finally they are safe and in a friendly place.

Please know we consider it our duty to show how your support is and our aid activities for Ukrainian families look like in these dramatic days. You can visualize how much can be done thanks to your priceless support so directly, at such a critical time.

With our warmest regards and gratitude,  
*Krzysztof Klapa, and the Poland RMHC Team (as well as surrounding areas).*
